Search by name... 🔍

Class names should comply with a naming convention		Code Smell
Track uses of "TODO" tags		Code Smell
Deprecated code should be removed		Code Smell
Cyclomatic Complexity of functions should not be too high		Code Smell
Constant names should comply with a naming convention		Code Smell
Unnecessary nullable in final declaration should be removed		Code Smell
Dependencies should be sorted		Code Smell
Unused assignments should be removed		Code Smell
Standard outputs should not be used directly to log anything		Code Smell
Variables should not be initialized with "null"		Code Smell
Files should end with a newline		Code Smell

Cyclomatic Complexity of functions should not be too high

Analyze your code

Adaptability - Focused

Maintainability 

 Code Smell  Critical   brain-overload

Why is this an issue?

The Cyclomatic Complexity of functions should not exceed a defined threshold. Complex code may perform poorly and can be difficult to test thoroughly.
