Dart static code analysis

Unique rules to write Clean DART Code

All rules **115**

 Bug **15**

 Code Smell **100**

Tags

Impact

Clean code attribute

Search by name...

Generic function type aliases should be preferred

 Code Smell

Type parameters should not shadow other type parameters

 Code Smell

"static final" declarations should be "const" instead

 Code Smell

Interpolation should be used instead of String concatenation

 Code Smell

Collection literals should be preferred

 Code Smell

Conditional assignment should be preferred

 Code Smell

"this" should only be used when required

 Code Smell

Exceptions should not be ignored

 Code Smell

Code annotated as deprecated should not be used

 Code Smell

File names should comply with a naming convention

 Code Smell

Unused local variables should be removed

 Code Smell

Package names should comply with a naming convention

Generic function type aliases should be preferred

Analyze your code

Consistency - Conventional

Maintainability 

 Code Smell

 Minor 

 cppcoreguidelines design since-c++11

Why is this an issue?
