Impact ▾

Clean code attribute ▾

Search by name...

"static final" declarations should be "const" instead

 Code Smell

Interpolation should be used instead of String concatenation

 Code Smell

Collection literals should be preferred

 Code Smell

Conditional assignment should be preferred

 Code Smell

"this" should only be used when required

 Code Smell

Exceptions should not be ignored

 Code Smell

Code annotated as deprecated should not be used

 Code Smell

File names should comply with a naming convention

 Code Smell

Unused local variables should be removed

 Code Smell

Package names should comply with a naming convention

 Code Smell

Overriding methods should do more than simply call the same method in the super class

 Code Smell

"isEmpty" or "isEmpty" should be used to test for

"static final" declarations should be "const" instead

Analyze your code
